Fuze Desktop 4.8.0 Hotfix 2

These release notes provide information about Fuze Desktop for Windows® and Fuze Desktop for Mac.

Note: Always remember to visit our Fuze Community site for the latest release notes and other information.

Fixed Bugs

Fuze Desktop 4.8.0-hotfix.2 includes the following bug fixes and improvements.

General Fuze Desktop

- This release introduces stability improvements to reduce the occurrence of Fuze Desktop closing unexpectedly for Windows users.

- This release introduces improved security handling when logging out of Fuze Desktop.

- The Fuze-assisted first time configuration workflow prompt was displayed every time users logged into Fuze Desktop instead of only the first time for some users.

- On macOS, Fuze Desktop would quit unexpectedly in some circumstances upon the computer waking up.
